**Appropriate Use of Computer/Online Resources/Equipment:** Participants in the Kids' College Program at Elgin Community College have the opportunity to use a variety of computerized resources. With this educational opportunity comes responsibility, to be shared by the participant user, parent(s)/guardian(s) and college staff. Participants should not play online games, participate in "chat rooms" or use computers for nonacademic activities unless given specific permission by the class instructor. Students will be allowed Internet access only when it relates to classroom work. Otherwise, students are restricted to using the software that pertains to their specific class. Students who violate this policy may receive the following reprimands: 1) a verbal warning; 2) a written warning; or 3) expulsion from the Kid's College computer program and will not be permitted to enroll in future Kids' College computer programs. Participants should not waste or take supplies such as paper, toner cartridges or diskettes.

**Ethical Use:** If the class requires online access, the students should upload or mail only material that is accurate, inoffensive, non-threatening and legal. If, at any time, the classroom instructor or other participants find a student's online viewing/writing to be threatening or offensive, that student will have his/her online access restricted. Participants who repeatedly seek out inappropriate information or who publish offensive information will have their access revoked. Students should tell the classroom instructor if they encounter any information online that is offensive, excessively violent, and obscene or makes them uncomfortable. The computers at Elgin Community College do NOT have screening software - any site on the Internet may be accessed from the campus. Elgin Community College cannot be held responsible for online materials found/published by Kids' College students, even if those materials are offensive, but

every attempt will be made to prevent students from viewing/publishing such materials. Participants must follow copyright laws pertaining to web authorship, plagiarism, etc., as explained by their instructor(s).

**Safe Use:** Participants should not give out personal information (full name, address, phone, social security number, for example) while online. Participants should not give out personal information about other people. Participants should never agree to meet in person someone they have met online. Participants may not use online resources or computers at the college to purchase materials or services. Participants may not download any type of software, plug-in, etc. to a computer on the college campus. Participants who do not follow these safety guidelines may have their online access restricted or revoked.

**Media Release for Photographs and Videos:** There will be photographs and videos taken of students during the programs. The footage maybe used in future promotional and educational materials. I hereby grant Elgin Community College Kids' College Program, its employees, agents, and assigns the right to photograph my child and use the photo and/or other digital reproduction of him/her or other reproduction of his/her physical likeness for publication, whether electronic, print, digital or electronic publishing via the Internet.
