The **mission** of Elgin Community College is to **improve** people's **lives through learning.**

VISION

We will pursue our mission by focusing all our efforts on making Elgin Community College a national leader in promoting success for all students. This vision will be attained through a commitment to provide innovative and affordable learning opportunities for all constituencies and to promote cultural competence and community partnership in our decisions and actions.

PHILOSOPHY

Learning is the primary driver behind our mission and vision. We believe learning is a lifelong process of intellectual and interpersonal growth that occurs when individuals expand their depth of knowledge, skills, and experiences. We further believe that learning empowers individuals to improve their lives and the economic, social, and cultural conditions of local and global communities.

SHARED VALUES

Excellence

Our programs and services strive for the highest level of excellence to successfully achieve our vision. We use research-based methods to strengthen curriculum and deliver high-quality learning-centered instruction and services.

Freedom of Inquiry

We believe learning is most engaging and viable when a spirit of free inquiry exists, allowing everyone the freedom to explore new and diverse ideas and to express their interests and attitudes. We strive to create environments where inquiry flourishes and guides innovation.

Equity

We are an inclusive community that provides students, employees, and community members with full access to all resources needed to achieve their individual goals.

We commit to creating an environment that is equitable and inclusive to all.

Diversity

We value and honor diversity in all forms and perspectives. To successfully achieve our vision, we provide a safe and inclusive community that promotes and affirms individual growth, social responsibility, and self-worth for success in a global world.

Ethical Practices

We are responsible to carry out our work with honesty and integrity. Our decisions and actions are guided by our vision and not by personal interests, and they will be enacted with a sense of service to students and community members.

Accountability

As a public institution, we commit to make the best use of resources. We strive to be transparent in reporting our decisions and actions and seek feedback from others as we continuously improve our practices.

Collaboration

We are actively committed to serving students, employees, and communities. The decisions and actions we undertake in carrying out our vision derive from working cooperatively with local through global constituencies.

ACADEMIC MACE

An academic mace is traditionally carried in procession and mounted on stage whenever degrees are granted or when the faculty is assembled in formal academic dress. Elgin Community College's mace is made of locally grown black walnut, copper, and glass and incorporates ECC's logo and shared values. The mace was designed and crafted by Joel Peck, professor of art history; David Reich, professor of welding; and Howard Russo, professor emeritus of visual arts. It was funded by the Elgin Community College Faculty Association as a gift to ECC President David Sam in celebration of the 60th anniversary of the college in May 2010.

LAMP OF KNOWLEDGE

The "lamp of knowledge" featured on the college's official seal and shown on stage during commencement symbolizes the illumination of the mind through scholarly pursuits. The lamp, as an indicator of intellectual and spiritual insight, has ancient origins reflected in numerous cultures and religions throughout the world. As a symbol for higher education, the lamp is connected to Greek philosopher Diogenes (circa 404-323 B.C.), who is reputed to have carried a lantern at noon in search of an "honest man," in which the man may have represented truth and knowledge.

The lamp featured on the ECC stage today was made by Howard Russo, professor emeritus of visual arts. Former Dean David Broad and Professor Emeritus E. Max von Isser were instrumental in establishing the lamp of knowledge in the college's seal and heraldry.

ACADEMIC DRESS

Academic costumes derive from a type of robe and a head covering worn in the twelfth and thirteenth centuries. Diversity in color and style developed until an intercollegiate code was adopted in the United States to encourage standard designs and usage.

An academic costume consists of three items: the gown, the hood, and the Oxford cap or mortarboard. Gowns are easily distinguished by their sleeves. Basic gowns have full sleeves. Bachelor's gowns have long pointed sleeves. The sleeves of a master's gown are oblong panels reaching nearly to the hem of the gown. Each sleeve has a small arc cut out near the bottom and a slit at the elbow through which the wearer extends his arm. A doctor's gown has full and bell-shaped sleeves which carry three horizontal bars; it also has a velvet panel extending around the neck and down the front of the hem. The velvet trim is usually black, but may be of the color associated with the degree.

An associate's hood has a colored lining but no trim. A bachelor's hood is the same length but is trimmed with a narrow velvet band. A master's hood is longer and trimmed. A doctor's hood is four feet long, has a broad, rounded base, and is trimmed with a five-inch velvet border. The color of the trim of a hood identifies the wearer's degree; that of the lining, the institution which conferred the degree.

The Oxford cap, usually referred to as a mortarboard, is black and has a long tassel which is fastened by a button on the top. Doctors wear a gold tassel. The tassel is usually worn dangling over the left front of the cap. During conferring of degrees, the graduates turn their tassels from right to left symbolizing the completion of their degrees or certificates.

Colors that appear on the trim of the hoods and indicating the field of study include:

Arts	White	Fine Arts.....	Brown
Business.....	Drab	High Honors.....	Gold
Education.....	Light Blue	Music.....	Pink
Engineering	Orange	Science.....	Golden Yellow

CONGRATULATIONS ACCELERATE COLLEGE GRADUATES!

This spring, we celebrate our 4th annual cohort of Accelerate College graduates. These 74 graduates from School District U-46, Community Unit School District 300, Central School District 301, St. Charles Community Unit School District 303, and Cambridge Lakes Charter School were enrolled full-time at Elgin Community College while also enrolled in high school. In addition to earning their high school diplomas, students will earn an Associate in Arts or Associate in Science degree.

Accelerate College is a dual-credit program whereby high school-age students enroll full-time at Elgin Community College and complete college courses. Students fulfill requirements for a high school diploma as well as an associate transfer degree simultaneously. The program is unique in several ways:

- Accelerate College is one of just a few dual-credit partnerships in Illinois where high school students earn an associate degree upon graduation.
- Student support services are specifically designed to help high school students transition to college.
- High school districts cover tuition providing significant savings for participating students and their families.
